

THE 4TH SEANES INTERNATIONAL CONFERENCE ON HUMAN FACTORS AND ERGONOMICS IN SOUTH-EAST ASIA

28 November - 1 December 2016 | Bandung, Indonesia

CALL FOR PAPERS

The SEANES 2016 Conference focuses on the theme “**Green Ergonomics: Sustainability, Productivity, and Well-being**” to support and expand the application of human factors and ergonomics with regards to recent local and global needs.

SEANES 2016 aims to enhance the awareness of the importance of Human Factors Engineering (HFE) in various human activities and application domains, including product design, learning, communication, healthcare, transport, defence and security. Hosted by Perhimpunan Ergonomi Indonesia (PEI) in collaboration with Institut Teknologi Bandung (ITB) and Universitas Katolik Parahyangan (UNPAR), we invite you to participate by contributing research papers.

The fresh air of Bandung, the so-called Paris van Java, provides an excellent venue for scientific exchanges among researchers, practitioners, and policy makers, across professions and disciplines, particularly for the South-East Asian region.

Do join us in SEANES 2016 in Friendly Bandung!
